

Volunteer Project Policy

Purpose: The Board of Directors of RVGS recognizes that volunteers provide hours of effort in carrying out a wide variety of projects (indexing, proofreading, photographing, data input, etc.). These projects are developed and carried out for the purpose of increasing research sources, many of which are intended to generate revenue to help support RVGS.

Policy: In acknowledgement of the potential value and usefulness of the various projects undertaken by RVGS volunteers, it is the policy of RVGS to require each volunteer who undertakes a project that results in a product (such as an index, spreadsheet, database, or any collection of information) to sign an agreement as follows:

I, _____, in acknowledgement of the Volunteer Project Policy (copy attached) and as an RVGS volunteer agree that the results of my volunteer efforts are the sole property of RVGS and will not be used or shared in any form for personal or commercial use.

Signature: _____

Date: _____

Requests for an exception to this policy may be made in writing to the RVGS Board of Directors.
