Ancestry/ProQuest

I dug through me email and found the one stating that they would no longer be updating us about remote access timelines through email. There was a link for the support site where I could find the information; however, the support site was being transitioned to a new platform which launches Monday, November 8. Hopefully I will be able to find more information then.

Server Update

I have met with Skeeter regarding finishing this project. He assures me he has a plan, but I do not have a timeline. I have expressed to him our need to get it finished.

Website Forms

I will be using November and December to clear out form data (registrations, class evaluations, etc.) after the last event in each category. For instance, once evaluations are complete for “The War of 1812” class, all evaluations will be cleared after downloading and forwarding to the education committee.
